```java
public class DeclareVariables
{
    //Constant variabls to be in the class method
    public static final float SMALL_DIAMETER_INCHES = 9.0f;
    public static final String SMALL_TOKEN = "S";

    public static void main(String[] args)
    {
        byte b = 0;
        short sh = 0;
        int i = 0;
        long lo = 0L;

        float f = 0.0f;
        double d = 0.0;

        String s = "";
        char c = ' ';
    }
}
```
